

MINSDEV - SOFTWARE ENGINEER

Email: me@minslab.net | GitHub: github.com/minsdevv | Web: me.minslab.net | Discord: minsdev_

PROFESSIONAL SUMMARY

Full-stack software engineer specializing in modern web ecosystems: TypeScript, Next.js, React, and Node.js. Focused on building high-performance applications, disciplined minimalist UI/UX, and robust distributed systems.

CORE SKILLS

- Frontend: Next.js 16, React 19, TypeScript, Tailwind CSS, Responsive Design, State Management
- Backend & Data: Node.js, RESTful API, PostgreSQL, MongoDB, System Design
- DevOps & Tooling: Linux/Bash, Git/GitHub Actions, Vercel, Docker, Performance Optimization

FEATURED PROJECTS

1. NaiFa (Portfolio & Social Hub) - me.minslab.net

High-performance personal web platform designed with Vercel monochrome and neyako.works aesthetics. Tech: Next.js 16 (Turbopack), React 19, TypeScript, Tailwind CSS v4. Clean architecture with 100/100 performance.

2. NaiFa Forum - node-forum-three.vercel.app

Online tech community and discussion forum with responsive UX, category sorting, and Node.js backend. Tech: Node.js, TypeScript, REST APIs, Vercel cloud deployment.

3. MC-SRV (Server Infrastructure) - github.com/minsdevv/mc-srv

Linux server management, automated maintenance pipelines, resource monitoring, and bash automation scripts.

EDUCATION & BACKGROUND

Passionate self-driven technologist continuously exploring modern web standards, systems, and open-source.
